**WorldWater Corp. and Siemens Solar
Industries Sign Strategic Alliance**

Business Editors

PENNINGTON, N.J.--(BUSINESS WIRE)--April 20, 2000--

For Potential International Contracts, Alliance Calls for WorldWater to Supply Proprietary Solar Water pumping, Electronic Systems and Water Engineering; Siemens to Provide Solar Modules and Technical Support

WorldWater Corp. of Pennington NJ (OTC BB:WWAT) and Siemens Solar Industries, L.P. of Camarillo CA today announced the signing of a Strategic Alliance to provide complementary technologies and systems toward a major contract award currently under bid in Sri Lanka. "We look forward to joint participation in future business opportunities in Sri Lanka and elsewhere," said Chester A. Farris, Executive Vice President and Chief Operating Officer of Siemens Solar. The U.S. subsidiary of Siemens A.G. of Germany, the worlds leading manufacturer of solar modules, has distributors and technical operations throughout the globe. Siemens Solar will supply solar panels and technical expertise. WorldWater will provide its proprietary solar pumping technology, electronics and water engineering for the Alliance. WorldWater has subsidiary companies in the Philippines, Pakistan and Tanzania, and operates in 16 other emerging nations in Asia, Africa and South America. Quentin T. Kelly, Chairman and CEO of WorldWater Corp., also praised the expected effectiveness of the Alliance. "Siemens supplies excellent solar equipment and technology. WorldWater's proprietary solar pumping systems and water engineering make an ideal fit with Siemen's equipment and expertise," Mr. Kelly said.
